REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art of record appears to be Vieville. Applicant has limited the organic composition to at least one component selected from the group consisting of acylglycerol, fats and oils whereas Vieville discloses a fatty acid as the organic composition. Also, Vieville does not disclose separating the glycerol from the alkyl ester and separating the alkyl ester from the critical fluid medium. Accordingly, it would not have been obvious to one of ordinary skill in the art to have produced alkyl esters by the claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cephia D. Toomer whose telephone number is 571-272-1126. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
